### **LOAN ENROLLMENT AGREEMENT REQUIREMENTS**

If a student is eligible for a loan guaranteed by the federal or state government and the student defaults on the loan, both of the following may occur:

- 1) The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed on the loan.
- 2) The student may not be eligible for any other federal student financial aid at another institution or other government assistance until the loan is repaid.

If a student obtains a loan to pay for an educational program, the student will have to repay the full amount of the loan plus interest, less the amount of any refund, and that, if the student receives federal student financial aid funds, the student is entitled to a refund of the money not paid from federal financial aid funds.

## **STUDENT TUITION RECOVERY FUND (STRF) DISCLOSURE**

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, CA 95834; (916)574-8900 or (888)370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

### **SCHOOL SELF-MONITORING PROCEDURES**

Fair Oaks Massage Institute makes every effort to keep all policies and procedures up to date and to inform its students, instructors, and staff of current policies and procedures that are implemented by the Bureau for Private Post-Secondary Education (BPPE). The school catalog and enrollment agreement are reviewed annually and as needed, making changes necessary per the BPPE guidelines and implementing any new BPPE policies and procedures as required once notified.

Additionally, the school Director regularly reviews pertinent BPPE laws and regulations that affect the operations of the school. Copies of these documents are kept at the Administration Office as well as the updated school catalog and enrollment agreement. The school catalog, which lists the school policies, is also available on the school website.

If the BPPE makes changes to policies, procedures or requirements, the school Director will highlight and discuss BPPE updates on its policies and procedures during monthly staff meetings. Documentation of any changes in the school policies and procedures affected are reflected in the meeting minutes and the school catalog updated accordingly.

In instances where the BPPE policies and procedures have been implemented before the publication of a new catalog, the Administration Office will bring these to the attention of the students, instructors, and staff through the following:

1. Posting on the bulletin boards in classroom
2. Verbal announcement during classes
3. Once updated, the school catalog will be posted to the FOMI website

Students who fail to maintain satisfactory attendance will be counseled. Attendance will be deemed unsatisfactory if more than 60 hours are missed. ### **UNFAIR BUSINESS PRACTICE**

California state law states that:

(a.) It is an unfair business practice for a person to do any of the following:

1. To hold himself or herself out or to use the title of “certified massage therapist,” or any other term, such as “licensed,” “certified,” or “CMP,” in any manner whatsoever that implies or suggest that the person is certified as a massage therapist or massage practitioner, unless that person currently holds an active and valid certificate issued by the council pursuant to this chapter.

2. To falsely state or advertise or put out any signor card or other device, or to falsely represent to the public through any print or electronic media, that he or she or any other individual is licensed, certified, or registered by a governmental agency as a massage therapist or massage practitioner.  
(b.)In addition to any other available remedies, engaging in any of the prohibited behaviors described in subdivision (a.) constitutes unfair competition under section 17200.

### **CERTIFICATION AND EXAM RATES**

Depending upon the student's professional path, students can opt to become state certified through the California Massage Therapy Council (CAMTC) or apply for a business license and somatic practitioner's permit in the local city/county in which they are planning to work. A business license may not be required if the therapist is not planning to be self-employed, but instead they will need a permit or to become state certified if they plan to be an employee. Additionally, if you are state certified and self employed, you will also be required to have a business license in addition to state certification through CAMTC.

### **BUSINESS LICENSE/PERMITS**

After certification at FOMI, students are eligible to apply for business licenses by contacting the city/county for which they are planning to work in if self employed and/or are not state certified through the CAMTC. The requirements and cost for a business license or special permit to practice massage vary depending upon the city/county that the student is intending to work; so, inquiring to the specific area of where the student is looking to work is imperative.

### **STATE CERTIFICATION**

The California Massage Therapy Council (CAMTC) issues voluntary certifications to massage professionals that meet the requirements in the California State Law. Certification is voluntary. CAMTC Certification is not required by State Law in order for a massage professional to practice their profession in the State. However, some cities and counties locally require CAMTC Certification for massage professionals. To find out if your city or county requires CAMTC Certification, please contact the city or county in which you wish to practice. Local permits may be needed for each city or county where you practice unless you are CAMTC Certified. If you are in an unincorporated area, please check with the county.

Massage professionals may find CAMTC Certification useful as it allows certified individuals to practice their profession in all cities and counties in the State without the need to get a local permit to provide massage for compensation.

California Business and Professions Code section 4611 makes it an unfair business practice for anyone not certified by CAMTC to use the titles: Licensed, Certified, Certified Massage Therapist, Certified Massage Practitioner, CMT, or CMP.

In order to obtain CAMTC Certification, an applicant must submit a fully completed application to the CAMTC and meet all of the following requirements:

- Be 18 years of age or older;
- Pay the Certification Fee;
- Submit fingerprints to an authorized agency in California for a Live Scan using only the CAMTC form at [Request for Live Scan Service](#) (the authorized agencies charge you a fee for this service) and pass a criminal background check;
- Have all schools you attended for massage training submit original Official Transcripts directly to CAMTC in accordance with CAMTC's Policies and Procedures for Approval of Schools. Your school(s) must send your OFFICIAL SCHOOL TRANSCRIPT(s) directly to CAMTC electronically via email to [transcripts@camtc.org](mailto:transcripts@camtc.org). Transcripts must demonstrate that you have successfully completed, at

a CAMTC Approved School, curricula in massage and related subjects totaling a minimum of 500 hours (or the credit unit equivalent), which incorporates appropriate school assessment of student knowledge and skills. (See below for more information about closed schools and out-of-state education.) Of the 500 hours, a minimum of 100 hours shall be in anatomy and physiology, contraindications, health and hygiene, and business and ethics; and

- Have not violated any of the provisions of the California Massage Therapy Act or any policy, procedure, or regulation of CAMTC.
- Make a good, clean photocopy of the front of your Driver's License or Official State Identification to include with your Application.
- Get your Passport Photo taken to submit with application.
- The costs for state certification are based on rates as of today and are all subject to change. The cost is \$300.00 for the initial application, which lasts for two years. The renewal cost is \$300.00 and good for two years. The initial application will also require live scan fingerprinting at an additional \$75-100. To apply, you must have completed 500 hours of onsite training at an approved school. Currently, students will not be required to pass the MBLEx to receive certification through the CAMTC.

### **NOTICE TO CAMTC APPLICANTS**

**Passage of a CAMTC approved exam is not currently required for CAMTC Certification. While the law previously imposed this requirement, the requirement to pass a CAMTC approved exam has been suspended through December 31, 2026.**

See <http://www.camtc.org> for more information regarding the state certification process.

### **CAMTC DISCLOSURE STATEMENT**

“Attendance and/or graduation from a California Massage Therapy Council approved School does not guarantee certification by CAMTC. Applicants for certification shall meet all requirements as listed in California Business and Professions Code section 4600 et. Seq.”

## **STUDENT'S RIGHT TO CANCEL**

A student has the right to cancel their agreement for a course of instruction, without any penalty or obligations through attendance at the first class session or the seventh day after enrollment, whichever is later. After the end of the cancellation period, students also have the right to stop school at any time and to receive a pro rata refund if they have completed sixty (60) percent or less of the program and less a non-refundable registration fee, not to exceed \$200.00.

## **STUDENTS MUST CANCEL IN WRITING**

The written notice of cancellation to the school Director, if sent by mail, is effective when deposited in the mail properly addressed with proper postage. Students **do not** have the right to cancel by calling the school or by solely verbally communicating their request.

To cancel the contract for school/courses and receive a refund the student must mail, deliver, or fax a signed and dated copy of the written cancellation notice, or any other written notice to the school mailing address, addressed to the school Director, Madonna Polley:

### **Mailing address:**

## **REFUND POLICY**

If the Enrollment Agreement is cancelled, the school will refund the student any money paid, less the non-refundable registration fee, not to exceed \$200, within 45 days after the notice of cancellation is received. Students who have withdrawn from the program without written notice, have 90 days to submit a written request for withdrawal and refund for the pro-rated amount of the program if they have completed 60 percent of the program or less. After 90 days of no written contact, the student is considered dropped and forfeits their refund. Since students are responsible for purchasing their own textbooks through outside vendors, new or used, they will need to seek textbook refunds through the individual vendor the books were purchased through.

## **WITHDRAWAL FROM THE PROGRAM**

Students may withdraw from the school at any time after the cancellation period of the Enrollment Agreement and receive a pro-rated refund if they have completed 60 percent or less of the period of attendance. No refund is available if they completed more than 60 percent of the program. The amount of that refund is to be "pro-rated" according to the incomplete portion of the program less the non-refundable registration, not to exceed \$200.00. The refund is to be paid within 45 days of withdrawal.

For the purpose of determining a refund under this section, a student shall be deemed to have withdrawn from a program of instruction when any of the following occurs:

- The student notifies the institution of the student's withdrawal or as of the date of the student's withdrawal, whichever is later.
- The institution terminates the student's enrollment for failure to maintain satisfactory progress; failure to abide by the rules and regulations of the institution; absence in excess of maximum set forth by the institution and/or failure to meet financial obligations to the school.

- The student has failed to attend class for 8 days.
- Failure to return from a leave of absence.
- For the purpose of determining the amount of the refund, the date of the student's withdrawal shall be deemed the last date of recorded attendance. For the purpose of determining when the refund must be paid, the student shall be deemed to have withdrawn at the end of 8 days.

### **LEAVE OF ABSENCE**

Students may request a leave of absence (LOA) from a certification program in the event of emergency or other compelling reasons. The request must be submitted in writing to the school Director. A leave of absence is granted one time, per student. The maximum amount of time for a leave of absence is one year. The student may then be admitted to a later course. Graduation will be delayed until attendance requirements are met. If a student does not return to complete the program after a leave of absence of one year, a refund will be calculated if they have completed 60 percent of the program or less, within 45 days of the one year LOA date. If more than 60 percent of the program was completed, no refund is available.

### **DROPPING OUT**

Students dropping out of the course may receive a tuition refund based upon the refund policy outlined in this catalog and the enrollment agreement. If dropping out, a request for refund must be in writing to the school Director. A refund is not available if the student completed more than 60 percent of the program. The last day of class attended will be considered the date of cancellation, whether or not a cancellation notice is given by the student to this institution. Students have 90 days to request a refund in writing or readmit into another program, however, the full tuition for re-admittance into the course would be required. If there is no contact from the student in writing after 90 days, no refund is available.

### **STUDENT COMPLAINTS**

Complaints may be directed to the school's Director either verbally or in writing. The complaint will be investigated thoroughly and if the complaint is not unfounded, the Director will work to resolve the issue(s). A student may lodge a complaint by communicating verbally/or writing to any teacher or office personnel. The recipient of the complaint shall transmit it as soon as possible to the Director. If an oral complaint is not resolved within a reasonable period or before another complaint is made, the student will be advised to submit a complaint in writing. If a student complaint is in writing, the institution shall, within 10 days of receiving the complaint, provide the student with a written response, including a summary of the institution's investigation and disposition. If the complaint or relief requested by the student is rejected, the reasons for the rejection will be stated. The student's participation in the complaint procedure and the disposition shall not limit or waive any of the student's rights or remedies. Any document signed by the student that purports to limit or waive the student's rights and remedies is void.
